Good advice from a local nurse: I am putting a basket of facecloths near the bathroom and kitchen. Use once for wiping hands, then throw in a bucket to dump into the wash. It saves on paper towels and in multiple users wiping hands on hand towels.

U.S. Census news: Less than one week ago, the 2020 Census fully kicked off, and invitations continue to arrive in mailboxes across the nation. Beginning today, in support of guidance on what we can all do to help slow the spread of coronavirus, 2020 Census field operations will be suspended for two weeks until April 1, 2020. Should any additional adjustments need to be made, the Census Bureau will communicate these changes broadly and promptly.

The public is strongly encouraged to respond to the 2020 Census online using a desktop computer, laptop, smartphone, or tablet, and can also respond by phone or mail. Everyone should respond to the 2020 Census as soon as they receive their invitation — and when they're finished, they can make sure their friends, families and social networks know about the importance of responding.

Once again, we encourage everyone to respond online today at 2020Census.gov. With the flexibility and support of the American people, we will achieve a complete and accurate count which helps guide funding decisions for things like hospitals, roads and emergency services. **Respondents can also respond by calling the number provided in their invitation or by mail once they have received a paper form.**
